CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

In offering to the community the best remedy for diseases of the throat and lungs, it is not our wish to flatter the credulity of the afflicted, but frankly to lay before the public such facts as we can furnish, and some of the evidence from which they can judge for themselves. We constantly receive certificates of the most astonishing cures of pulmonary complaints, which facts will warrant us in saying that no other medicine is so universally successful in curing them.

Many people are here given over, and we solicit an investigation of the evidence in their cases, feeling assured that they will find sufficient proof to warrant them in giving our remedy a trial. Our only object is to relieve human suffering, which facts will enable us to do.

From the distinguished Professor of Chemistry and Materia Medica, Bowdoin College.

Dear Sir, I delayed answering the receipt of your communication until I had an opportunity to test your remedy. My own family, or in the families of my immediate friends, I have now found a remedy which will cure the most distressing cough, and I have no hesitation in recommending it as the best remedy for the relief of consumptive patients with which I am acquainted.

Yours, truly, JOHN GORHAM.

From an Overseer in the Hamilton Mills in Lowell.

LOWELL, April 10, 1849.

Dr. J. C. AYER: I have for the past winter been afflicted with a severe cough and cold, attended with pain in the breast, and a general prostration of the system. I was induced to try your CHERRY PECTORAL, and have found it to be the most effectual remedy I ever used. I have recommended it to others, and it has never failed to relieve the most distressing cough, and restore the patient to health. I am confident that it will cure the most severe cough, and I shall recommend it to all my friends.

Yours, respectfully, S. D. EVERSON.

Read the following, and say if this medicine is worth a trial. This patient had become very feeble, and the effect of the medicine was unmistakably set out.

HARTFORD, Conn., June 7, 1849.

Dr. J. C. AYER—Sir, I have been afflicted with a severe affection of the lungs, and all the symptoms of confirmed consumption, for more than a year. I could find no medicine that would reach my case, and I consider the use of your Cherry Pectoral, which relieved me promptly, and in a few days gave me strength, all that remains to make a well person.

Yours, &c., J. F. CAMPION.

Saint Catharine, Madison county, N. Y., March 31, 1849.

Sewing by Machinery.

To Journeymen Tailors, Seamstresses, Employers, and all others interested in Sewing of any description.

SEVERAL attempts have been made to produce Machines for Sewing, but they were not of ordinary efficiency, and could be used to little advantage or profit.

SINGER & PRESTON'S *Celebrated Sewing Machine*, invented by Isaac M. Singer, and manufactured by Singer & Phelps, No. 29 Harvard Place, Boston, Mass., is offered to the public as a perfect machine, well calculated and adapted to perform any kind of work, from the stitching of the shirt bosom to a ship's sail, as well as in all descriptions of leather. The needle is straight and works perpendicularly upon the table of the machine, attending more and uniformly to adjust the fabric in any way—and the stitch may be regulated to any length, even to a hair's breadth.

The stitch made by this machine is one which will not ravel or rip, and the sewing can only be taken apart by cutting every second or third stitch. From 500 to 1500 stitches, according to the fabric operated upon, can be taken per minute.

The saving, this machine is the means of enabling one lady or gentleman to do as much work in a day as five sewing women could do by the ordinary method, and the saving can easily be from five to six dollars per day. The operation is not confined to the manufacture of clothing only, but may be applied to sewing every description of linen, cotton, woolen, and most kinds of leather.

The machine, in ordinary cases, is warranted to run one year without repairs, and will last many years.

And it is so simple in its construction and so easily regulated and managed, that any person of ordinary ability may operate it.

The price of one of these machines, which is worked by a treadle, and capable of sewing any of the above items, such as cotton or woolen fabrics, is one hundred and twenty dollars; a description of which, with testimonials for operation.

The machines here are beautiful and neat in their appearance, and no stable upon the floor, that they are an ornament to any fashionable sewing parlor.

[☞ An Agent, with whom exclusive arrangements will be made, is wanted in every city and town in the United States. All applications for Agencies, and all orders enclosing money for machines, which will be carefully packed to any part of the world, and warranted, must be post-paid and addressed to SINGER & PRESTON,

SECURED AGAINST GUNPOWDER

Warranted not to Injure Books or Papers by Dampness.

THESE are the only Safes (Wilder's PATENT) that will ever preserve papers preserved their contents when exposed to large fires, like the burning of the Tribune printing office in New York city, and many others too numerous to mention.

The above Safes are manufactured and for sale by JOHN E. WILDER, Boston, and for sale in Bangor, at the manufacturers prices, by

FISK & DALE.

☞ The following letter from the Superintendent of the Maine Telegraph Company is another proof of the superiority of JOHN E. WILDER'S Safe over all others:—

BANGOR, Oct 24, 1849.

John E. Wilder, Esq.—

Dear Sir—The Safe I purchased of you was exposed to a great degree of heat at the burning of the Telegraph Office, in this city. It was in the fire six hours; the books and papers were uninjured and the cleaning to the Safe very slight, although it fell from the second story to the basement of the building. The little repairs necessary to the Safe have been made, and we shall not need to order it. It is still as good as new.

AGENCY FOR BUSINESS

WITH U. S. PATENT OFFICE,

WASHINGTON.

No. 22 State Street, —— Boston.

IN 1849 the subscriber was appointed by the Commissioner of Patents, Agent of the U. S. Patent Office, in accordance with the 10th Sec. of Act of 1837.

Having relinquished the Agency for the transmission of Models, and adopted a more expeditious mode of sending them to the Patent Office, *where Patent may be procured about one week sooner*, he continues to forward them free of expense—to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents; and to render advice on legal and scientific matters respecting the same. Patents secured in France and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of *verbally* explaining their inventions, and pointing out the merits of the same, *in order to obtain correct specification and claims.* The experience of fifteen years practice, in extensive collection of rare works, decisions, &c., on mechanical subjects, the Patent laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford inventors every facility desirous of procuring Patents, assistance and information which in the course pursued he is fully competent to render.

R. R. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—

During the time I occupied the Office of Commissioner of Patents, R. R. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and having facilities in securing inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,

Late Commissioner of Patents.

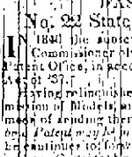
FOR

Coughs, Colds, Consumptions,

AND ALL AFFECTIONS OF THE LUNGS.



THE VEGETABLE PULMONARY BALSAM, by Dr. Isaac Ellis, of Burlington, Vt., has been before the public for the last six years, and during that time has received the most unqualified approbation of all who have used it. Its unparalleled success in the cure of Coughs, Colds, Consumption, Asthma, Bronchitis, Croup, Whooping Cough, Influenza, Hoarseness, and all Diseases of the Throat and Lungs, has induced many to call it a miraculous remedy. Its power to relieve the most distressing cases of Consumption, and restore the patient to health, is truly astonishing. Many who have been given up by their physicians as incurable, have been restored to health by the use of a few bottles of this Balsam. Many certificates could be published, but the proprietor deems it unnecessary, as he is confident that it will recommend itself to all who use it. Those who are afflicted with a cough, cold, or any disease of the Throat or Lungs, are requested to call at the Agent's Office, and get a pamphlet containing a full description of the Balsam, and certificates of its virtues, which will be given gratis. Those who have used it are requested to call and get a new supply, as it is now put up in new bottles, with a new label, and the proprietor's signature on the outside wrapper. Each bottle is sealed with a red wafer, with the letters V. P. B. stamped on it. Be particular to call for Dr. Ellis's Vegetable Pulmonary Balsam. Prepared by Dr. ISAAC ELLIS, Burlington, Vt. HAIR PRESERVATIVE.

THIS article has been before the public nearly two years, and the proprietor is prepared to say that for REMOVING DANDRUFF from the scalp,

RESTORING HAIR WHERE FALLEN OFF TEMPORARILY,

and giving it a BEAUTIFUL GLOSS and COLOR, CANNOT BE EXCELLED. The basis of this Preparation is a pure vegetable Oil, extracted from a plant found growing luxuriantly in the Western States, and which possesses, in a remarkable degree, the essential properties requisite for

REPRODUCING AND BEAUTIFYING THE HAIR,

by acting upon and reviving its glands or roots.—Those who faithfully apply this Preparative, will be surprised at finding how silk-like and glossy it renders the Hair while it clears the scalp of scurf or dandruff, and affords the most agreeable sensations. It has already been extensively used, and in every instance has given perfect satisfaction.

REASONS FOR USING THIS PRESERVATIVE.

1. It is a very pretty, CLEAN article, and has an agreeable perfume.

2. It is put up in a very convenient form, and at a very reasonable price.

3. Acting as a stimulant, it affords relief to the Head ache.

4. It tends to hard brushy Hair a desirable moisture and softness.

5. It promptly arrests the falling off of the Hair when that evil has commenced, and promotes the growth of new Hair. In fine, it does all for the Hair that any preparation for restoring and improving the ornament of the Head can possibly do.

Littell's Living Age.

E. LITTELL & CO.,

Corner of Tremont and Bromfield Streets.

THIS work is conducted in the spirit of Littell's Museum of Foreign Literature, (which was favorably received by the Public for twenty years,) but as it is twice as large, and appears as often, the editor not only gives more and its articles to all by many times which were included in a month's work, but has the opportunity to select and publish a greater number of the most valuable and interesting portion of the literary, historical, and political matter, as fully to satisfy the wants of the American reader.

The elaborate and stately Essays of the *Edinburgh, Quarterly*, and other Reviews; and *Blackwood's* noble criticisms on Poetry, its keen political Commentaries, highly wrought Tales, and vivid descriptions of rural and mountain Scenery, and the contributions to Literature, History, and Common Life, by the sagacious *Spectator*, the sparkling *Examiner*, the judicious *Athenæum*, the witty and perspicuous *Britannia*, the sober and respectable *Christian Observer*; these are universally read with the Military and Naval reminiscences of the *United Service*, and with the best articles of the *Dublin University*, *New Monthly*, *Fraser's*, *Tait's*, *Ainsworth's*, *Bentley's*, and *Sharpe's Magazines*, and *Chambers's* admirable *Journal*. He does not consider it beneath his dignity to Forrest wit and wisdom from *Punch*, and, when he thinks it good enough, makes room for the plunder of *The Times*.

The steamship has brought Europe, Asia, and Africa, into our neighborhood; and will greatly multiply our connections, as Merchants, Travelers, and Politicians, with all parts of the world; so that, much more than ever it now becomes every intelligent American to be informed of the condition and changes of foreign countries. And this not only, because of their nearer connection with ourselves, but because the nations seem to be approaching, though by slow process, that change in their relative position, which the merely political prophet cannot compute or foresee.

Geographical Discoveries, the progress of Colonization, (which is extending over the whole world,) and Voyages and Travels, afford favorite matter for his selections and, in general, the literary estimate is carefully and very fully represented to readers with the great department of Foreign affairs, without neglecting our own.

While the Living Age is desirable to all who wish to keep themselves informed of the rapid progress of the movement—to Statesmen, Divines, Lawyers, and Physicians—to men of business and men of leisure, it will be found to be peculiarly attractive and useful to their Wives and Children. It is found in every well-informed family.

We say *incomparable*, because in this day of cheap literature it is not possible to guard against the influx of what is bad in taste and vicious in morals, in any other way than by furnishing a sufficient supply of a healthy character. The mental and moral appetite must be gratified.

By "*concentrating the whole from the best*," by providing abundantly for the imagination, and by a large collection of Biography, Travels, and Narrative, History, and more solid matter, a work is produced, well calculated for universal popularity, and to raise the standard of public taste.

This excellent work is published every Saturday, by E. LITTELL & CO., *Boston*, who supply orders by mail from all parts of the country. Remit any sum to them, and they will send the work to that amount. Each number makes a handsome pamphlet of 48 pages, double column octavo—Price, 12½ cts.—or by the year, *Six Dollars*.

We add to our own recommendation, what our readers will also infinitely more value, a letter from the late Ex-President, J. Q. Adams:

Washington, 7th December, 1845.

Of all the Periodical Journals devoted to Literature, and Science which abound in Europe and in this country, this has appeared to me to be the most useful. It contains indeed the compilation daily of the current literature of the English Messenger, but this by its increased extent and comprehension includes a portraiture of the human mind in the utmost expansion of the present age.

THE PILES!

A CURE FOR LIFE SECURED!

DR. UPHAM'S INTERNAL REMEDY FOR THE CURE OF PILES!

THE VEGETABLE PILE ELECTUARY, invented by Dr. A. Upham, a distinguished physician of New York city, is offered to the public as a safe, speedy and certain remedy for that dangerous and distressing complaint the Piles, ever offered to the American public.

It is Electuary contains no *Mineral Medicine*, no *Mercury, Calomel, Quicksilver*, or other poisonous and irritating agents. No fear of taking cold while under its influence, no change in diet necessary. In taken according to direction a cure *for life is guaranteed.*

Another certificate added to the number that have already been published of the efficacy of Dr. Upham's Electuary.

NEW YORK, August 22d, 1849.

Messrs. Pratt & Rickey—*Gentlemen*: The subscriber has been troubled with Piles, in a very severe form, for about two years, and has tried almost every remedy for the relief of the complaint, but my complaints, indigestion and weakness of the system, but my complaints not being so severe as to disable me from business, and a friend had recommended Dr. Upham's Vegetable Pile Electuary, I concluded to try it, and after taking a few doses found relief, and by a perseverance in following the directions for a short time, was entirely cured of the Piles and my health much improved. I remain sirs, your much indebted friend,

The writer of the above, from motives of delicacy, declines having his name used; but authorizes me to refer to him to show the original certificate to any person desirous of doing so.

A gentleman residing in the vicinity of Dr. Upham's Depository, PHILADELPHIA, Sept 9, 1848.

Dr. Upham—Dear Sir: About five years ago I was afflicted with what is called Chronic Dysentery, accompanied with severe pain, and phials of blood and mucus discharged from the bowels, rendering me so low as to be unable to walk. Having used your Vegetable Pile Electuary, I found more relief in one month than I had received from all the medicines I had taken during the whole time of my sickness, and in three months—during the middle of intense pain, occasioned by a hot sun, I was in a wagon over your Electuary, a portion of which I purchased at a store and took two doses of, which has appeared to cure me, and is disposed to say every thing in its favor, or render any service I can to humanity by acknowledging to its merits.

Respectfully yours, BENJAMIN PERCIVAL.

SATURDAY, JANUARY 25, 1851.

ANDREW ATWOOD LETTER. We find in the New Hampshire papers still another letter from John Atwood, Esq., the Democratic candidate for Governor of the State. It was drawn out by a note from Gen. Pierce, calling his attention to the statement of the six Democrats in Manchester, which we published a few days since. Mr. A.'s letter is dated on Monday last. He gives an explanation in regard to the circumstances attending the publication of his first letter, and then proceeds to the main point, viz., whether the Manchester certificate reported him correctly. He admits that it may—adding that what he said was in private conversation, and not thinking it would ever be referred to again, he did not particularly charge his memory with it. The following is the only portion of his letter which relates to the Compromise measures—and it will be seen that Mr. Atwood stands by both of his preceding letters—the abolition and the compromise one:

"As, however, my position does not seem to be understood, I take the opportunity to say a few words of explanation.

"In relation to my letter to Col. White, and others, I had designed to introduce into it some few modifications before its publication, and particularly one in regard to the authority of law. But as it has appeared before the public, I have only to say that it comprises in substance my views on the subject of the extension of slavery, and of the Fugitive Slave Law as one of the acts of the last session of Congress. In the language of the Legislature of 1845, I am firmly and unalterably opposed to the extension of slavery. And I believe we may consistently, I claim to ourselves, as Democrats, the right to the full and free exercise of our opinions upon this subject, without coercion or prescription therefor from any quarter.

"In relation to the Fugitive Slave Law, it seems to me there are some provisions in that law which are extraordinary and oppressive, and liable to be perverted to the enslavement of free citizens, and that it imposes duties and services upon the people of the Free States which they should not be required to perform. And while I fully recognize that clause of the United States Constitution, providing for the return of persons held to service, escaping from one State to another, it seems to me that some of the provisions of the present law are unnecessary to carry out either the letter or the spirit of the Constitution.

These views honestly imbibed and frankly expressed, I have never designed to sacrifice under any consideration, and I believe I never shall.

Although there are provisions in the Fugitive Slave Law which I do not approve, it is, nevertheless, a law of the land, and so of each of the compromise acts. The only alternatives are, resistance or submission. I cannot countenance resistance, nullification or disunion, or anything leading thereto. I have therefore planted myself upon the Constitution and laws of my country, with a firm conviction that it is my duty to regard and maintain the supreme authority of the laws and abide by the Union."

☞ The Portland Inquirer publishes in its columns a scurrilous article which in a poorly printed handbill form has been passing from hand to hand among certain persons in this city. The article, in its original and appropriate blackguard form, was unworthy any notice, and the notice now is only called out, in reference to the character of the article being transferred to the editor who gives it currency and bestows upon it his courteous comments and acknowledgment of connection with the villain who gave currency to the slanderous document.

☞ The Troy Daily Post says, it has long thought that one of the great and inscrutable purposes of the Almighty in permitting the bondage of the African race upon this continent, as to send back to their father land, through colonization of the blacks, the light of Christianity and that civilization which is dependant upon, and naturally flows from it. This is an axiom; but one which has roused the latent zeal, and nerved the energies of some of the best and purest men of our country, for the last half century.

☞ The young men of our times should learn not to give up all to the practical—not to sacrifice everything to the god of mammon. They should devote some time to the cultivation of the ideal: to the education of the heart: to the encouragement of that high idea which rises above the dross and drudgery of the world, towards that heaven of inversion where the soul revels in the enjoyments of a higher life, where the mind's eye obtains a glimpse of the bright prospect revealed in the future state of perpetual bliss—of heaven-born felicity.

It is rumored that one of the Astor family has contracted for the erection of two hundred buildings, from three to five stories high, on Forty-fourth, Forty-fifth, Forty-sixth and Forty-seventh streets, the foundations of which will be laid as soon as the contract is completed. These buildings will be situated mainly between Broadway and the Ninth avenue, New York.

Her stopping at Halifax enables us to give to our readers the foreign news several days in advance of its reception here had she gone through to New York. Nothing has been heard from the steamship Atlantic.

Editorial Duties.

The writer of the following remarks, Mr. F. K. Hunt, an Englishman, author of the Fourth Estate, or a History of Newspapers, describes in a happy manner the peculiar cares which press upon a public journalist. No one can understand the nature of editorial duties who has not had them to perform:

"The man who, once becomes a journalist, must almost bid farewell to mental rest or mental leisure. If he fulfills his duty truthfully, his attention must be ever awake to what is passing in the world, and his whole mind must be devoted to the instant examination, and discussion, and record, of current events. He has little time for literary idleness, with such literary labor on his shoulders. He has no days to spend in catalogues, or in dreamy discursive researches in public libraries. He has no months to devote to the exhaustion of any one theme. What he has to deal with must be taken up at a moment's notice, be examined, tested, and disposed at once; and this all mind is ever kept occupied with the mental necessity of the world's passing hour."

NEW ENGLAND IN MARCH.—During the past week we have made a collection of all the newspapers published the first week of the last century we are just entering upon, and intend to preserve them for future reference. Fifty years hence the collection will probably be a curiosity. According to our estimation, the whole number of papers is 254, classified into forty-two weekly, two semi-weekly, and three monthly; the latter is made up of fifteen religious, and one of free soil. Taken of them are religious, and one is devoted to the cause of education. Of the dailies, three are published in Portland, and two in Bangor; of the tri-weeklies, two in Portland, and one in Bath. Nine of the weekly papers are published in Portland, four in Bangor, three in Bath, two each in Belfast, Saco, Gardiner, Skowhegan and Calais, and one each in Biddeford, Norway, Paris, Lewiston Falls, Hallowell, Waterville, Farmington, New Castle, Thomaston, Rockland, Dover and Eastport. The monthlies hail from Gorham, Bath, and Oldtown.

At the commencement of the last half century, in January, 1801, there were only five papers published within our limits, all of which were weeklies. Their names were, The Portland Gazette, Eastern Herald, and Oriental Trumpet published at Portland; the Kennebec Intelligencer, at Hallowell; and the Castine Journal, at Castine. In 1820 the number had increased to only six, as follows: Weekly Visitor, printed at Kennebunk; Portland Gazette, and Eastern Argus, at Portland; Hallowell Gazette, and American Advocate, at Hallowell; and Bangor Weekly Register, at Bangor.—Belfast Signal.

MISSING VESSEL. The brig Olive Thompson, James M. Hymn.

Written to be sung at the delivery of the sermon by Rev. Mr. Schouler, of Cherryfield, on the death of E. J. Jacobs, Esq., who died on board the barque Belgrade, on her passage to California.

Beneath the ocean's wave he lies,
Far, far from his own native shore,
And from that secret depth will rise
To see this native home no more.
Though far from those, he lov'd most dear,
He sicken'd, suffer'd, droop'd and died,
To watch his couch kind friends were near,
And every art to save him tried.
And when he yielded up his breath,
And sunk into his peaceful sleep
They wrapp'd him in his shroud of death,
And gently launch'd him in the deep,
To rest within his lonely bed
'Till Heaven's last trumpet shall awake,
And call from earth and sea the dead
Their resurrection right to take.
But not without a hymn and pray'r
They laid him in his watery grave,
These burial notes they rais'd with care
To Him who took back what he gave.
And when the op'ning waves receiv'd,
And hid him from their gaze, view,
With weeping hearts and eyes they griev'd
To part with one so lov'd and true.
Let not your tears in sorrow flow
For him, who thus was call'd away
He has but quit a world of woe
To live in realms of endless day.
The gold he sought and toil'd to gain,
Could not have purchas'd one in bliss,
But he will now, that wealth obtain,
Whose promis'd joys he soon shall prize.
The time approaches and will come,
When from all earthly [illegible]
You may rejoin him in that [illegible]
Where death can make no [illegible]

ARRIVAL OF THE

ARCTIC

AT HALIFAX.

Cotton Dull—Corn Lower—Excitement in Paris—Abrupt Resignation of French Ministry—Perturbation in Germany.

HALIFAX TELEGRAPH OFFICE,
Friday, Jan. 24—3 P. M.

The American Steamship Arctic, Capt. Luce, from Liverpool, Jan. 11, arrived here shortly after 11 o'clock this forenoon, and will sail for New York during the evening. She has 35 passengers and a full freight of valuable goods.

The American arrived at Liverpool on Monday afternoon on the 7th inst.

The Cotton market was dull, with a drooping appearance. Prices, though not actually lower than by the Asia's advices, are yet much less firm, especially in middling and lower description of American. The weekly sales are stated at 28,760 bales. Speculators took about 1500 and exporters 1000.

The Flour and Grain trade is extremely languid, the transactions going forward being only for immediate wants.

Western Canal flour quoted at 20s to 20s 2d. Philadelphia and Baltimore 23s.

Corn has receded 6d and is inactive. Quotations White, 32s; Yellow, 30s 31s; Mixed 29s to 30s.

In the Provision market there is more business doing, especially in Beef: good qualities of new commanding very full rates. The high rates of Pork have checked business, but the advance is likely to be sustained. There is a moderate demand for new Bacon; really fine commanded extreme rates. Old hams move slowly. No new in market. No shoulders in market. The demand for Lard is not extensive but holders have established an advance of 6d. Fine cheese moves steadily at full prices.

The English general news possesses no feature of general interest.

Great excitement prevailed at Paris during the week in consequence of the resignation, en masse, of the Ministry. This was caused, first, by the open hostility of the President towards Gen. Changarnier, who, in defiance of the earnest protestations of the Ministry, was given permission on the instant, and by a decided majority, to justify his conduct before the Assembly.

Both the right and left warmly applauded the General when the Ministry abruptly withdrew, and with equal abruptness resigned in a body. The President experienced great difficulty in the formation of a new Cabinet. Barot and others having refused to accept office. This state of things continued for nearly a week when, as we learn from a telegraphic despatch, dated *Paris*, Friday evening, kindly furnished by Capt. Luce, the Moniteur appeared with the President's speech and the official announcement of Drouign D. L. Sules for Foreign Affairs, and Gen. Reynaud D'St. Jean D'Angely for the War office, with new appointments also of Minister of Marine, Public Works and Commerce.

Another decree, signed by the Ministers of the Interior and of War, is published, and revokes the decree by which the National Guard and the troops of the First Division were united under one command. The design of this decree is to abolish the post heretofore held by Gen. Changarnier. Gen. Perriot takes command of the National Guard; and the troops of the First Division are to be commanded by Gen. Baraguey d'Hilliers.—He enters upon his duty by issuing a general order to the Army of Paris, in which he explains the object of his mission, and stated that he will maintain the discipline which his predecessor has established. He also states that he will uphold the authority established by the Constitution, and give his energetic support in the execution of the laws. A postcript to the despatch under date 7 o'clock, states that a motion had been made in the Assembly that the members should retire to their Bureaux to name a commission to prepare resolutions expressive of the sense of the Legislature in regard to recent events, which motion was carried, against the active opposition of the Ministry, by a vote of 350 to 253. Great confusion is stated to have prevailed in the Assembly after the declaration of the vote.

Very little business was done at the Bourse on Friday—3's opened at 94x95—closed at 94 65.

In regard to the German question, though there are many probable and improbable rumors, nothing is known, the purport of the conferences being kept scrupulously secret, which it is judged is not a favorable augury.

The tone of triumph which pervades the bearing of Prince Schwartzenburg and the growing hostilities of the Chambers at Berlin, which met on the third inst., are also named as evidences of an unsatisfactory state of the negotiations at the latest dates, 7th inst.

Prince Schwartzenburg's mission to Vienna is stated to have failed of its intended objects. The Emperor of Austria and the King of Prussia have agreed to meet at Dresden about the middle of the month. The Commissioners to arrange the difficulties between the Duchies had arrived at Rendsburg, and at the latest date had given the authorities three days to consider what course they would pursue. Meantime, the government and the people's representatives in Wurtemburg are at loggerheads upon the subject of voting the supplies, and there appears to be a probability that a [illegible]

Magenta and other Italian refugees, give no reason to doubt but that, any serious difficulty at Paris would be instantly seized upon to unfurl the Republican banner in the holy city, where the French soldiery have become so obnoxious, that they are indiscriminately assassinated by the citizens on every possible occasion.

From Spain we have nothing beyond the usual weekly statement of the resignation of the Navarez Cabinet, which this time was caused by the Queen's having received that gentleman coldly.

DISASTERS.

ST. MICHAELS, Dec. 22.

The Melrose, bound to New York, in getting under weigh got in contact with another vessel and started her bolt ends and is supposed to have gone to Fayal to repair.

PANILLAO, Jan. 9th.

The W. Sturgis, Hiler, for Boston, has put back after being out thirty days with cargo shifted, loss of sails and otherwise injured. Bore up from lon. 24.

The Kalamazoo, for Philadelphia, has put back with loss of pinrs, outwater, &c., and leaky, having been in contact with the Charles Chaloner, for N. Orleans, which has also put back with damage and leaking water.

Mr. Cowdin, bearer of despatches from the U. S. Legation at London, came passenger in the Arctic.

SECOND DESPATCH.

Usual Cotton Market report of European Times, Liverpool, January 10th, says: There is little if any change to report since our last. At the close of the past week and the commencement of the present one without any excitement or stir, much firmness was shown, and despite of the considerable error which appeared in our yearly stock taking, former rates were maintained. The last few days however the demand has fallen off, all business being entirely confined to the immediate wants of the trade, and though the value of fair cotton, as placed by the Brokers' Committee, remains unchanged, uplands being 7¾, Mobile 8¼ and New Orleans 8¼, yet on the middling and lower descriptions of American the turn is in favor of the buyer, not amounting, however, to a quotable decline on the general business.

Sugar—with fair business prices are in favor of the buyer at Liverpool.

At London, on Friday, sales were small at 6d lower than the week previous.

Coffee—Few transactions at Liverpool at previous rates. At London the home market was better and prices slightly advanced.

Tea—both at Liverpool and London the market is inactive and prices are in favor of the buyer

Naval Stores—In turpentine no transactions.—Rosin good demand at 2s.

Ashes—dull, prices unchanged.

Quercitron bark—dull at 9s 6d for Philadelphia, 600 bags Baltimore at 8s 3d.

Oils—Olive is lower, Rape, neglected; Fish, quiet, Cod, £37,10s per ton; Lard, forty tuns sold at £37-40s per ton; Linseed, £34 to £35.

Metals—The quarterly meeting of the Iron trade, recently held at Birmingham, resolved to accept previous prices. Some parties, however, are obtaining an advance of 7 to 10s per ton. The prospects of the trade are considered very satisfactory.

Wool—steady demand. Light stocks, full prices.

FINANCIAL AFFAIRS.—Formal notice has been given that the Bank of England will not further advance its rate of interest. The effect has been, with the payment of dividends, to make the money market much easier. The last report gives the amount of Bullion in the Bank at a trifle less than fourteen and one quarter millions. English securities have been well supported, and there has been an increased demand for American stock. Exchanges having improved, more paper is offered than for some time past. Bullion, therefore, is in less request, and can scarcely be disposed of at late rates.

From the Continent advices show an advancing rate in the quotations of exchange. Gold coin has also further advanced. Consols opened on Wednesday at 92¾, and closed on Friday at 93¼. U. S. Sixes 1868, 108 to 103; New York State Fives 1858-1866, 95 to 99; Sixes 1866, 105 to 100; Boston Fives 1868-82, 93¾ to 93¾; Pennsylvania Fives, 84 to 85; Massachusetts Fives, 105 to 106; Maryland 6's, 89; Canada Sixes, 100 to 107.

Freights to the Northern ports are well supported and show a tendency to advance, especially to New York. Passengers also offer more freely and rates are somewhat better.

ENGLAND.

The Board of Trade returns for the month ending Dec. 6th, show an increase in the exports over the corresponding month of the previous year of rising six hundred and seventy-one thousand pounds.

The trial of the monster, Sloan, has been postponed. His wife is supposed to have fled the country.

IRELAND.

It is announced that the Dublin and Galway Railway will be open for travel on the first of June!

Property to the amount of £30,000 was destroyed by fire on the 4th inst. It broke out in the couch building establishment of Messrs. Hutton on Summer Hill!

PRUSSIA.

BERLIN, Jan. 7.

The report of the impending resignation of the Minister of Commerce assumed greater probability. The policy of protection is now wholly rejected by the government.

HALIFAX, Friday evening, 8 P. M.

It is understood that the Arctic will sail tonight at 12 o'clock. We have nothing of the Atlantic. The revenue cutter goes to Sable Island to-morrow, and on her return we may hear something of her. We have had mild easterly weather for some days. Brig Halifax sailed for Boston yesterday.

A lady of distinguished rank in Paris, lately gave birth to a child, which, though otherwise well formed, was totally, without brain. This young creature, like the sensitive plant, experienced the liveliest emotion upon being touched. The top of the head was completely flat, which, joined to a long narrow jaw, gave to the face the resemblance of the head of a rabbit. It lived twenty-two hours, to the great astonishment of the doctors, who had assembled to inspect this extraordinary phenomenon.—*Courrier des Etats Unis.*

The shark, instead of depositing some millions of eggs like the cod or herring, produces but two, of a square or oblong form, the coat of which is composed of a tough horny substance, and each corner prolonged into a tendril, the use of which appears to be their entanglement among the stalks of sea-weeds, and the consequent mooring of the egg in a situation of protection and comparative security until the fish is perfected.

In early childhood you lay the foundation of poverty or riches in the habits you give your children. The safety and strength of a government, the welfare and happiness of the people, depend upon universal education, derived from pure and wholesome sources.

APPEARANCES ARE EVERYTHING.—This proverb includes a secret truth. Appearance recommends itself, especially as it is seen in the proper adornment of the person. The hair and complexion, under good treatment, contribute much to enhance the estimation in which each is held, and the articles best calculated for preserving, cleansing and ornament are Hyde's Hyperion Fluid for the hair, and the Hyperion Fluid for the skin. Both by the inventor, William Hyde, at 277 Washington St., Boston.

Foster's Mountain Compound, for the Hair far surpasses any other Compound for the Hair ever before introduced. One quantities never before Given. One bottle of this wonderful Compound is equal in quantity to Six bottles of any other preparation. Both from the unequalled brilliancy and the permanency of its effects it ensures to the Hair, and fulfills all that is promised. Its reputation has been brought to such a high degree of excellence that it is the only sure remedy for all diseases of the Scalp.—Baldness, Scurf and falling Hair, removing Old Dandruff, &c. Its extraordinary success has brought forth numerous spurious nostrums, made almost entirely of Alcohol, which dry up the Hair, and aggravating in the first cause of baldness, and very injurious. Beware of these quackeries!

The Mountain Compound is sold for by the elite and fashionable in all the principal cities of the Union, and is regarded the most nutritious article for a long great beauty, luxuriance, and richness to the texture of the Hair ever invented.

Ladies and Gentlemen, try it! We say to you it is [illegible]

Prepared by LABAN FOSTER & CO., Chemists, and A. P. GUILD, and Druggists everywhere.

Bliss' Compound Cod Liver Oil Candy. Since the introduction of Cod Liver Oil into general use, a great desideratum has been to furnish an article with the same medical virtues, and free from the disagreeable odor and taste, which have rendered its use almost impossible with persons who are suffering under severe affections of the throat and lungs. After a series of experiments, the proprietor has succeeded in combining the pure Oil with other celebrated remedies in the form of a most AGREEABLE CANDY, preserving and preserving all the medicinal virtues of the Pure Cod Liver Oil, without its nauseous and repulsive taste, presenting it in a form by which it can be administered to the most delicate invalid without inconvenience. So pleasant is the taste that it may be advantageously given to a child without difficulty.

The powerful curative principles of Cod Oil, so justly famous in the relief and cure of Coughs, Colds, Asthma, Bronchitis, Sore Throat, Influenza, and all diseases of the Throat and Lungs, being thus refined and combined with other healing and harmless ingredients, forms one of the most soothing Cough Remedies and probable means of averting the advances of Consumption that has ever been discovered.

Beware of counterfeits. Call for Bliss's Compound Cod Liver Oil Candy, and observe his signature on every package of the genuine. Prepared only by H. K. BLISS, Druggist, Springfield, Mass. Price 25 cents a package.

THE CHEAPEST NEWSPAPER IN THE WORLD!

THE TRIBUNE FOR 1851.

☞ Now is the time to Subscribe. ☜

THE DAILY TRIBUNE

is issued every morning, except Sunday, on a large sheet of four white pages, containing eight printed columns each; or about the size of two ordinary London Newspapers. About six of these pages are filled every morning with the aggregate of 24 columns, News and Miscellanies being greater than of any other paper in America, and greater than any paper in Europe, except the London Times, which has but two more. The price is but two cents per copy, or $3 per annum, about the cost of similar journals in England. Two Evening Editions are issued to supply news subsequent to the latest hours for the morning mail. The Tribune is sold in China by Russell & Co., who have special charge of all matters pertaining to the Politics and Legislation of our own Country—its Foreign (Old World) Department is in charge of Charles A. Dana, assisted by able correspondents in London, Paris, Berlin, Constantinople, &c. Dr. Calhoun, late Editor of the Albany Evening Journal, is City Department Editor of Reporter. No expense is or will be spared to render its news from all quarters, by Telegraph, Express, Steamer, Mail, or Special and reliable Agents, at any, and all needful times, prompt and accurate. Price $3 per annum in advance; three months, $1.00.

THE SEMI-WEEKLY TRIBUNE

Contains nearly all the non-advertising matter of the Daily, except such as is of local interest, or has been superseded by later and more authentic advices before the Semi-Weekly is issued. It is printed on the same sheet as the Daily, and has a few advertisements. Price $2 a year, in advance; 5 copies for $9; 13 copies for $20.

THE WEEKLY TRIBUNE

is issued every Saturday morning, and contains the best matter of the week, with more summary accounts of such events as will be talked about, than can be found in full. We mean to make no Weekly shall surpass it in its large and faithful account of what the world is doing, whether in the Cabinet, Congress, or Progressive Field.

The Tribune is not yet quite two years old, and has obtained an extensive circulation; of not far from a Half Thousand subscribers—about two-thirds of them in the Weekly. Every subscription is paid in advance, and when the advance pay time ends, a request to renew is sent; and in nine cases out of ten the subscription is renewed for a year. Those who like the plan on which the paper is conducted, and the principles which it advocates, are invited to subscribe. Those who do not like it will take a New York paper, because we do not. The Tribune is the best and most readable journal in the world.

GREAT INDUCEMENTS TO CLUBS.

3 Copies for one year	$5 00
8 Copies for one year	10 00
20 Copies for one year, and one copy to the address of the person from whom the club is received	20 00

Subscriptions from individuals and clubs are respectfully solicited.

GREELEY & McELRATH, Tribune Buildings, N. Y.

☞ Notice of Removal.—The Office of the Tribune is removed to the new and commodious building recently erected for its accommodation, on the west side of Nassau street, between Spruce and Beekman streets, directly in the rear of the present Office. The Post Office in the Old Stone Church will be continued at our present address, and deposited in the same box. Many subscribers will no doubt be considerably accommodated by the change, as the Office will be found much nearer to them than it has been. G. & M.

OPINIONS OF THE PRESS.

The New York Tribune.—The *Tribune* is the *Morning Mirror* which We think not excluded from all real or pretended likeness of the leading American journal in the following paragraph from the Boston Post: "At the head and front of the Journal of New York stands the Tribune, as the representative, par excellence, of the third section, but we cannot help think it a misnomer. The Tribune is a paper that presents many strong features which no one of like character can fail to admire. Its grounds and expositions of principles are taken boldly, and are defended by the most powerful arguments. It has shown that it has a remarkable judgment in the selection of its correspondents, and in the manner in which they present their views. Its sentiments are liberal and enlightened, and although sometimes, perhaps, too much tinctured with the fanciful and visionary, they generally advocate the cause in a sincere and highly able manner. The general opinion of the Tribune is very favorable."

Among the characteristics of the Tribune are its *independence*, reliability, power, honesty, and fearless common sense.

The editorials of the Tribune are always forcible, sensible, thoughtful, transparent, good-tempered, and logical. Their clearness and force, the directness of their reasoning, the commonsense and practicality and philosophical sagacity tone, distinguish them. They are courteous, though sometimes almost coldly severe; and, when opponents in controversy compel it, can wield with much confidence and effect the weapons of sarcasm and ridicule. Numerous thousands are continually ordering it for the political world around us, but we find none to like the Tribune; its tone may be wrong, and in the impressions of many it may differ from them to the ground of dislike; but we have yet to find the man who, reading it, can say that it is not able, fearless, consistent friend of human progress, the same generous supporter of all real and practical reform, which it was at the commencement of its career. If the editorial staff takes a New York paper, we conclude. The Tribune is by far the most readable and influential we meet.—*Newark (N. J.) Mercury.*

☞ We are much obliged to The New York Tribune for an exchange. It has for several good reasons of its own, it is almost indispensable. It is unquestionably the nearest to a universal American and Foreign News Journal of any that has fallen under our observation. In politics we don't like, but we do desire its vigorous, fearless, independent style of independence in printing the latest news in Government and the Social compact (so called) of society, and its ready possession of all the material which can only constitute a newspaper. Its correspondence is unique and unsurpassed. Its foreign letters are dated from all the principal points of interest in the world, and are written by men who have the ability to see and describe what is worth seeing and describing. Its reports of Congress are full and accurate, and its editorials are able, fearless and independent. In short, the Tribune is a model newspaper, and we wish it success.—*Bangor (Me.) Information.*

THE Great American Remedy

FOR Colds Coughs, Asthma Whooping Cough Croup and all diseases of the Chest and Lungs, has now been so long before the public, and its reputation so well established both from recommendations of Physicians, and from the invariable test many of its infallible virtues by all who have used it, *that it but half to become extremely large* and it must every month exceed the sale of every other article known, for the same and kindred complaints. As a family medicine, it can never be too highly recommended, the usual dose in almost every case is double the usual dose in almost every case in the first stages of croup, and relieves and quiets it from all style. For quieting the cough of years it has been the favorite and universal remedy in all the cases named, of one of the most celebrated and skillful Physicians

Blood Purifier.

THIS wonderful medicine has been given to the world by the proprietor, after many years of very careful and successful practice in the city of New York, and its power to cure all diseases originating in a bad state of the blood, is now well known to the inhabitants of this city and vicinity

Humors and Diseases

of the Skin, such as Blotches Pimples Boils Carbuncles Ringworm Salt Rheum Scald Head Erysipelas Rose or Shingles Tetter or Salt Rheum Itch Scurfiness and Scaly Eruptions, are literally driven from the system in a short time by the use of this Sarsaparilla

SCROFULA.

This terrible disease which has baffled the skill of the most eminent physicians, and filled the silent grave with its victims, yields readily to the purifying influence of this Sarsaparilla, as hundreds in this city can testify

Fountain of Life

and health restored to the system when it is destroyed by the use of mercury or other mineral poisons, by the use of this Sarsaparilla

BLOOD PURIFIER!

Upon the first appearance of the Pimples, Blotches or Eruptions, which are the outward signs of the internal impurities of the blood, a few bottles of this Sarsaparilla will remove them from the system, and prevent the more dangerous diseases which they indicate from appearing

BLOOD PURIFIER!

Persons who have been long afflicted with Boils, Carbuncles, Ringworm, Tetter or Salt Rheum, Scurfiness, Scaly Eruptions, or any disease originating in a bad state of the blood, will find a few bottles of this Sarsaparilla will cure them
